

What is OSNI Road Network?

OSNI Road Network is a vector dataset showing all Motorways, A Class, B Class and C Class roads in Northern Ireland. All roads are named in full and show Road Classification and Road Number. OSNI Road Network has been created as a continuous network allowing users to plan the shortest route between points.

Vector mapping is a digital representation of a map with intelligent points, lines and polygons.

Extract from OSNI Road Network showing road classifications

Technical Features & Benefits

- ◆ Fully matched against other official sources (Road Service and Pointer[®]) for product compatibility
- ◆ Includes all Motorways, A Class, B Class and C Class roads in Northern Ireland
- ◆ Sourced from and updated with OSNI's Large-scale mapping
- ◆ Contains Unique Street Reference Number

Applications

- ◆ Creation of vehicle tracking systems
- ◆ Location based services
- ◆ Network analysis
- ◆ Automated map production
- ◆ Asset management
