

## What is 1:50 000 Vector?

OSNI 1:50 000 Vector is made up of a large number of distinct datasets, including roads, relief and drainage, as well as administrative boundaries. These datasets provide full coverage of Northern Ireland and can be provided individually or bundled together to provide more detailed information.

*Contours*

*Wards*

*Water Features*

## Key Features & Benefits

- ◆ Datasets available in several bundles including, roads and boundaries or contours, water features and spot height data
- ◆ Can be used with all other OSNI products and features can be linked to any database
- ◆ All data is fully attributable and users can tailor the datasets to suit their own requirements
- ◆ Basic units of spatial information represented in points, lines and polygons. Available in Mapinfo and shapefile formats
- ◆ Can be used with all industry standard GIS and CAD packages

## Applications

- ◆ Environmental impact analysis
- ◆ Engineering and environmental consultancy
- ◆ Market analysis
- ◆ Internet mapping
- ◆ Demographic analysis
- ◆ Land use analysis
- ◆ Vehicle routing
